
Chapter 3

Curriculum Vitae

The illustration was taken from Canva.

By the end of this chapter, students will be able to:

- ☑ Understand the structure and purpose of a CV;
- ☑ Identify key vocabulary related to job applications;
- ☑ Analyze a sample CV through reading comprehension activities;
- ☑ Write their CV using a structured template.

Activity 1: Reading

Read the cover letter carefully!

What is a CV?

A Curriculum Vitae (CV) is a professional document that outlines an individual's education, work experience, skills, and achievements. It is commonly used when applying for jobs, internships, research positions, or academic programs. Unlike a résumé, which is usually brief and tailored for specific job applications, a CV provides a comprehensive overview of one's qualifications and can include additional sections such as certifications, projects, and references.

Key Components of a Well-Structured CV

A well-organized CV typically includes the following sections:

- ☑ Personal Information
 - Full name, and contact details (phone number, email address).
 - Professional links (LinkedIn profile, personal website/portfolio).
- ☑ Career Objective / Professional Summary
 - A concise statement highlighting key skills, career goals, and relevant experience.
 - Tailored to align with the job or field of interest.
- ☑ Education
 - List degrees, institutions attended, and graduation years.
 - Mention relevant coursework, honors, or academic distinctions (if applicable).
- ☑ Work Experience
 - Provide details of past job roles, responsibilities, and key achievements.
 - Use bullet points for clarity and focus on measurable outcomes.
- ☑ Skills
 - Include both technical (e.g., programming, data analysis) and soft skills (e.g., communication, leadership).
 - Keep it relevant to the job being applied for.
- ☑ Certifications & Training
 - List additional professional qualifications, licenses, or specialized training.
- ☑ Additional Sections (if applicable)
 - Projects: Highlight key projects with a brief description of contributions and results.
 - Languages: Mention proficiency levels (e.g., Fluent, Intermediate).
 - Hobbies & Interests: Include only if relevant to the role or industry.
 - References: Can be listed or provided upon request.

Tips for an Effective CV

- ☑ Keep it well-structured and easy to read with clear headings.
- ☑ Use professional language and action verbs (e.g., "developed," "managed," "implemented").
- ☑ Quantify achievements where possible (e.g., "Increased sales by 30%").
- ☑ Tailor the CV to match the specific role or industry.

A well-crafted CV creates a strong first impression and increases the chances of securing an interview. Keep it updated and relevant to showcase your best professional attributes effectively.

Activity 2: Let's Build Your Vocabulary!

Match each word from the text on the CV with its correct meaning.

No	Word	Definition
1	résumé	a. A high level of skill or ability in something.
2	qualification	b. Contact details of people who can provide professional recommendations.
3	certification	c. A brief document summarizing work experience and skills, typically one page long.
4	proficiency	d. A document proving completion of specialized training.
5	references	e. A degree, diploma, or certificate that shows someone has the necessary skills for a job.

Activity 3: Understanding a CV Format!

Reread the article in Activity 1 and decide whether these statements are true (T), false (F), or not given (NG).

- ☒ **True (T)** → The statement is **correct** based on the information in the text.
- ☒ **False (F)** → The statement is **incorrect** because it contradicts the given information in the text.
- ☒ **Not Given (NG)** → The statement is **neither confirmed nor contradicted** in the information provided.

No	Sentence	T/F/NG	Reason
1.	A CV is always one page long.	NG	CV does not have to be 1 page long. While generally a one-page CV is generally recommended for those with limited work experience or when applying for entry-level positions, it can be longer if necessary.
2.	The education section should include the institution's name and graduation year.	T	This helps potential employers quickly understand your educational background and when you completed or will complete your studies.
3.	Work experience should be written in paragraph form.	F	Work experience on a CV is typically not written in paragraph form. Instead, it's usually presented in a bullet-point list for clarity and ease of reading. This format allows hiring managers to quickly scan through your

			achievements and responsibilities.
4.	Soft skills like teamwork and communication should not be included in a CV.	NG	It can shows how you've applied them in real situations rather than simply listing them. Employers want to see proof of these skills in action.
5.	Hobbies should only be mentioned if they are relevant to the job.	Y	It's because employers are looking for qualities and skills that align with the position. Including hobbies that are directly related to the role.
6.	A CV must include a photo of the applicant.	NG	If the employer is looking for someone based on qualification and experience then its not necessary to include a photo unless specifically requested by the employer
7.	The more pages a CV has, the better it is.	F	The length of a CV should be determined by the relevance of the information we're including, not just the number of pages
8.	A professional summary is an optional part of a CV.	Y	A professional summary is not strictly required, but it can be a valuable part of your CV, especially if you're applying for more senior or specialized roles. It is considered optional, but it can help you stand out if written well.
9.	A CV should always list references at the end.	F	Listing references at the end of your CV is optional, and it's becoming less common to include them directly on the document unless explicitly requested by the employer?
10.	Using bullet points in the work experience section makes a CV clearer.	Y	Bullect point can make it much clearer and easier for hiring managers to quickly scan your qualifications because it's only highlight a relevant information.

Activity 4: Reading

Read and study an example of a CV below.

Curriculum Vitae

Emma Anderson

123 Innovation Street, Jakarta, Indonesia

✉ emma.anderson@email.com | ☎ +62 812 3456 7890

🌐 LinkedIn.com/in/emmaanderson | 🌐 emmaandersonportfolio.com

Career Objective

A dedicated and detail-oriented IT graduate with a strong foundation in software development, cybersecurity, and data analysis. Passionate about innovative technology and eager to apply problem-solving skills and technical expertise in a dynamic work environment. Seeking a position as a Software Developer to contribute to impactful projects and further develop technical proficiency.

Education

📌 Bachelor of Information Technology

University of Indonesia, Jakarta, Indonesia

📅 2021 – 2025 (Expected Graduation)

◆ GPA: 3.85/4.00

◆ Relevant Coursework: Software Engineering, Database Management, Machine Learning, Cybersecurity

Work Experience

📌 Software Development Intern

ABC Tech Solutions, Jakarta, Indonesia

📅 June 2024 – Present

- ◆ Assisted in developing a web-based application using React.js and Node.js.
- ◆ Conducted software testing and debugging to improve application efficiency.
- ◆ Collaborated with a team of developers to optimize system performance.

IT Support Assistant

University of Indonesia IT Department

 Aug 2023 – May 2024

- ◆ Provided technical support for students and faculty, troubleshooting hardware and software issues.
- ◆ Managed the university's database security and ensured smooth system operations.
- ◆ Conducted workshops on cybersecurity awareness for students.

Technical Skills

- ✓ Programming Languages: Python, Java, JavaScript, SQL
- ✓ Web Development: HTML, CSS, React.js, Node.js
- ✓ Database Management: MySQL, MongoDB
- ✓ Cybersecurity: Network Security, Data Encryption, Risk Assessment
- ✓ Cloud Computing: AWS, Google Cloud
- ✓ Software Tools: Git, Docker, JIRA

Certifications & Training

-  Google IT Support Professional Certificate – Coursera (2024)
-  AWS Certified Cloud Practitioner – Amazon Web Services (2023)
-  Data Science with Python – Udemy (2023)

Projects

E-commerce Website Development

Developed a fully functional e-commerce website with secure payment integration using React.js and Firebase.

AI-Based Chatbot for Customer Support

Built a chatbot using Python and Natural Language Processing (NLP) to automate customer queries.

Languages

- ✓ English – Fluent
- ✓ Indonesian – Native

Hobbies & Interests

 Coding Hackathons |  UI/UX Design |  Tech Blogging |  AI & Machine Learning

Professor of Computer Science

University of Indonesia

Activity 4: Reading Comprehension

Choose the correct answer for each question based on Emma Anderson's CV.

1. What position is Emma seeking in her CV?
a) Data Analyst
b) Cybersecurity Consultant
c) Software Developer
d) IT Support Specialist
2. In the Education section, what relevant coursework has Emma listed?
a) Graphic Design and Marketing
b) Software Engineering, Database Management, Machine Learning, Cybersecurity
c) Business Administration and Finance
d) Literature and Communication
3. How did Emma contribute to her Software Development Internship at ABC Tech Solutions?
a) Designed business presentations
b) Wrote articles on cybersecurity awareness
c) Assisted in developing a web-based application and conducted software testing
d) Managed the company's finances
4. Which of the following technical skills does Emma possess?
a) Programming in Python, Java, and JavaScript
b) Financial accounting and bookkeeping
c) Teaching English to students
d) Photography and video editing
5. Why does Emma list hobbies like coding hackathons and UI/UX design?
a) Because hobbies help fill up space in the CV
b) To show that she enjoys sports and outdoor activities
c) To demonstrate interests that align with her IT career
d) To make her CV more personal and casual

Activity 5: Let's Build Your Vocabulary!

Match each word from the text on the CV with its correct meaning.

No	Word	Definition
1.	Internship	a. A period of work experience offered by a company to gain practical knowledge.
2.	Cybersecurity	b. Assisting people in solving problems related to computers and software.
3.	GPA	c. The ability to develop creative and user-friendly interfaces for websites and apps.

4.	Certification	d. A numerical measure of a student's academic performance.
5.	Software testing	e. Checking if a computer program works correctly by finding and fixing errors.
6.	UI/UX design	f. The protection of computers and networks from attacks, theft, and damage.
7.	Technical support	g. A document proving completion of specialized training or courses.

Activity 6: Fill in the Blanks!

Fill in the blanks with the correct information based on Emma Anderson's CV.

No	Sentence
1.	Emma is pursuing a degree in _____ Bachelor of Information Technology _____ at the University of Indonesia.
2.	She is currently interning as a _____ Software Development _____ at ABC Tech Solutions.
3.	One of Emma's technical skills is _____ Cybersecurity _____, which involves securing networks and preventing data breaches.
4.	Emma completed an online certification from AWS in _____ Cloud Practitioner _____.
5.	One of the projects Emma worked on was an _____ AI-Based _____ chatbot for customer support.

Activity 7: Word Formation

Complete the table by filling in the correct noun, verb, or adjective form of each word.

No	Base Word	Noun	Verb	Adjective
1.	apply	application	Apply	Applicable
2.	develop	Development	develop	Developed/developing
3.	secure	Security	Secure	Secure
4.	certify	Certification	Certify	Certified
5.	analyze	analysis	analyze	analytical

Activity 8: Articles & Prepositions Maze

- ☑ **Articles** are words used before nouns to define whether the noun is specific or general. There are two types of articles: definite and indefinite.

1. Definite article (the) –

- It is used when referring to a specific noun.
- Example: *Emma has been looking for the job for so long.*

2. Indefinite articles (a, an)

- It is used when referring to a non-specific noun.
- Article *a* is used before words that begin with a consonant sound, such as in *She is applying for a software developer position.*
- Article *an* is used before words that begin with a vowel sound, such as in *Emma is attending an IT conference.*

- ☑ **Prepositions** are words that show the relationship between a noun (or pronoun) and other words in a sentence. They often indicate time, place, direction, cause, or manner.

1. Prepositions of place (where?)

- Emma works *at* ABC Tech Solutions.
- She lives *in* Jakarta.
- Her portfolio is *on* her website.

2. Prepositions of time (when?)

- The interview is *at* 10 AM.
- She graduated *in* 2025.
- Her certification was issued *on* June 15.

3. Prepositions of direction (where to?)

- She applied *to* a tech company.
- Emma logged *into* the system

4. Prepositions of manner (how?)

- She learned coding *by* watching online tutorials.
- She fixed the error *with* debugging software.

5. Prepositions of cause and reason (why?)

- Emma got the internship *because of* her strong programming skills.
- The meeting was canceled *due to* technical issues.
- Emma received an award *for* her outstanding innovation.
- She suffered *from* burnout after working long hours.

Complete the sentences below using the correct article and preposition provided in the box. One article and preposition can be used more than once.

into	because of	with	a
with	towards	at	as
in	an		

No	Sentence
1.	Emma is currently working <u>with</u> ABC Tech Solutions <u>as</u> a software development intern.
2.	She completed <u>a</u> certification <u>in</u> Google IT Support.
3.	She is proficient <u>in</u> Java, Python, and JavaScript.
4.	In 2024, she participated <u>in</u> a cybersecurity workshop.

5.	Emma is looking for <u>an</u> exciting opportunity <u>in</u> the tech industry.
6.	Emma solved the coding issue <u>with</u> patience and accuracy.
7.	The software engineer walked <u>into</u> the server room to check the system.
8.	The system malfunctioned <u>because of</u> a network failure.
9.	The programmer entered data <u>with</u> great precision to avoid errors.
10.	The IT team rushed <u>into</u> the office after receiving an emergency alert.

Activity 9: Craft Your Own CV!

Instructions:

- ☑ Create a professional CV based on the job vacancy you have made in Chapter 2.
- ☑ Use the CV template provided below as a guide. You may modify the format and wording to fit your experience and skills.
- ☑ Fill in the blanks with your personal details, including your name, contact information, education, work experience, skills, and achievements.
- ☑ Ensure your CV includes the essential sections: Personal Information, Career Objective, Education, Work Experience, Skills, Certifications, and References.
- ☑ Use clear headings, bullet points, and formal language to maintain a professional format.
- ☑ Review your CV carefully for grammar, spelling, and formatting before submitting.

Curriculum Vitae

Akmal Gelar Maulana Saputro

📍 Kebonan RT1/2, Kertonatan, Kartasura, Sukoharjo

✉ akmalsaputro6@gmail.com | ☎ 089650237189

🌐 <https://www.linkedin.com/in/akmal-gelar-maulana-saputro-15296733b/>

Career Objective

As a dedicated and detail-oriented IT graduate with a strong foundation in software development, cybersecurity, and data analysis, my career goal is to grow in a dynamic work environment where I can apply my problem-solving skills and technical expertise. I aim to contribute to impactful projects as a Software Developer while continuously advancing my knowledge and proficiency in innovative technologies.

Education

📌 Diploma of Informatics Engineering

Sebelas Maret University, Surakarta, Indonesia

📅 2024 – 2027 (Expected Graduation)

◆ GPA: 3.89/4.00

◆ Relevant Coursework: Software Engineering, Database Management, Machine Learning, Cybersecurity

Work Experience

📌 Software Development Intern

LasLus Enisylus Inc, Sukoharjo, Indonesia

📅 July 2026 – Present

◆ Assisted in developing and testing web-based applications using HTML, CSS, JavaScript, and Python.

◆ Collaborated with the development team to troubleshoot bugs and optimize system performance.

◆ Participated in daily stand-up meetings and contributed ideas to improve user interface and functionality.

📌 IT Support Assistant

Teyvat Tech Co, Surakarta, Indonesia

📅 January 2023 – June 2024

◆ Provided technical assistance and support for hardware, software, and network-related issues.

◆ Installed, configured, and maintained computer systems and peripheral equipment.

◆ Documented support tickets and solutions to improve troubleshooting efficiency and user satisfaction.

Technical Skills

✓ Technical Skills: HTML, CSS, JavaScript, Python, MySQL, Git, Linux, Network Troubleshooting

✓ Soft Skills: Teamwork, Communication, Problem-Solving, Attention to Detail, Time Management

Certifications & Training

📖 Google IT Support – Google/Coursera (2024)

📖 Introduction to Cybersecurity – Cisco Networking Academy (2023)

Projects

🚀 Student Attendance App

Developed a web-based attendance system using HTML, CSS, JavaScript, and PHP. My role included front-end design and database integration using MySQL.

🚀 Network Security Simulation

Worked on a simulated network environment to identify vulnerabilities and implement basic security measures using Wireshark and Cisco Packet Tracer.

Languages

✓ Indonesian – Native

✓ English – Intermediate

Hobbies & Interests

💡 Tech DIY | 🎨 Digital Illustration | 📖 Reading Tech Articles | 🤖 Robotics
